**The 5
Top
Cleaning
Tips You
Need To
Know!**

Tip One: The best way to keep drains free of hair and clogs is to start by using a product like “Drano or Liquid-Plumber” to make sure potential clogs are gone, then pour boiling water down drains once a week to keep problem-free. For a more natural approach you can use 3 tablespoons of baking soda and a cup if vinegar, follow that with boiling water. 😊

Tip Two: Our number one rule for “Quick Cleaning” at home is to have all your supplies together and ready to go. The team at BZYBZ suggests buying a Cleaning Caddy and filling it with all of your favorite supplies and cleaning utilities. 😊

Tip Three: The BZYBZ team suggests that you always start cleaning at the top of a surface, and work your way down. This helps you to avoid dripping cleaner, or settling dust over surfaces that have already been cleaned. 😊

Tip Four: Vinegar is an inexpensive and healthier alternative to “Windex” or any other glass cleaner. Fill a bottle with a quarter Vinegar and the rest water, use this with a dull rag and it will leave your windows and mirrors shiny and streak free!!!! 😊

Tip Five: To keep the trash from smelling up the room, sprinkle baking soda into the trashcan to help absorb smelly odors. Save yourself some time searching for extra bags, by storing a few bags in the bottom of the trashcan. When you pull out the old bag, a new bag will be ready and waiting. 😊

The best tip of them all would be to leave all the cleaning chores to the professional team at BzyBz Cleaning Service.

You can then spend the “NEW FREE TIME” you have doing something you love, like spend some quality time with your family.
